CONTENTS

ARTICLES

(Figures in bold type denote number of issue)

ANDERSON, F. W.
Aschemonella longicaudata sp. nov. from the Permian of Derbyshire, England, **1**, 44.
A New Species of the Ostracod Genus *Paijenborchella* Kingma, **1**, 40.

BEAVIS, F. C.
Strain Slip Cleavage in the Ordovician Sediments of Central Victoria, **6**, 504.

BHATTACHARJEE, C. C.
The Lewisian Geology of the Little Sand Dioritic Mass, Gairloch, **1**, 48.

BISHOP, A. C.
The Petrogenesis of Hornblende-mica-lamprophyre Dykes at South Hill, Jersey, C.I., **4**, 302.

BOSE, M. K.
Observations on the Nepheline Syenites of Koraput, Orissa, **6**, 558.

BOWES, D. R., and T. S. GHALY.
Age Relations of Lewisian Basic Rocks, South of Gairloch, Ross-shire, **2**, 150.

BRADSHAW, R., and M. K. WELLS.
Boudinage-type Structures at Sørfinnset, Gildeskaal, North Norway, **6**, 488.

CANNON, R. T.
Porphyroblastic and Augen Gneisses in the Bartica Assemblage, British Guiana, **6**, 541.

CASEY, R., and C. R. BRISTOW.
Notes on some Ferruginous Strata in Buckinghamshire and Wiltshire, **2**, 116.

CHORLEY, R. J.
An Analysis of the Areal Distribution of Soil Size Facies on the Lower Greensand Rocks of East-Central England by the Use of Trend Surface Analysis, **4**, 314.

COBBING, E. J.
The Highland Boundary Fault in East Tyrone, **6**, 496.

CUMMINS, W. A.
Current Directions from Folded Strata, **2**, 169.

DAWSON, J. B.
Carbonate Tuff Cones in Northern Tanganyika, **2**, 129.

DHONAU, T. J.
A Possible Extension of the Ratagan Igneous Complex, Wester Ross and Inverness-shire, **1**, 37.

DRYSDALL, A. R., and P. GARRARD.
Significance of the Radiometric Ages of the Nchanga and Lusaka Granites, Northern Rhodesia, **2**, 161.

FLEUTY, M. J.
Tectonic Slides, **5**, 452.

FRANCIS, T. J. G.
A Seismic Refraction Section of the Preglacial Teifi Valley near Cenarth, **2**, 108.

FUNNELL, B. M.
Studies in North Atlantic Geology and Palaeontology : I. Upper Cretaceous, **5**, 421.

HANCOCK, P. L.
The Relations between Folds and Late-formed Joints in South Pembrokeshire, **2**, 174.

JOHNSON, R. L.
The Structure of the Marumbe Ring-Complex, Nuanetsi Igneous Province, Southern Rhodesia, **3**, 274.

JONES, K. A., and A. K. GALWEY.
A Study of Possible Factors concerning Garnet Formation in Rocks from Ardara, Co. Donegal, Ireland, **1**, 76.
KAYE, P.
Observations on the Speeton Clay (Lower Cretaceous), **4**, 340.
Ostracoda of the Genera *Eucytherura* and *Cytheropteron* from the Speeton Clay, **2**, 97.
KRINSLEY, D., N. MORTON, and J. L. CUTBILL.
The Application of Vacuum Shadowing to the Examination and Photography of Small Objects, **4**, 357.
LEAKE, B. E.
New Light on the Dawros Peridotite, Connemara, Ireland, **1**, 63.
LLOYD, A. J.
The Luxembourg Colloquium and the Revision of the Stages of the Jurassic System, **3**, 249.
MCCALL, J.
A Primary Lineation at the Base of Certain Kenya Lava Flows, **3**, 271.
MORTON, N., and J. D. HUDSON.
The Stratigraphical Nomenclature of the Lower and Middle Jurassic Rocks of the Hebrides, **6**, 531.
NETTLE, J. T.
Fabric Analysis of a Deformed Vein, **3**, 220.
OPPENHEIM, M. J.
Basalt Textures from the South-Eastern Lower Galilee, Israel, **6**, 548.
OXBURGH, E. R.
Petrological Evidence for the Presence of Amphibole in the Upper Mantle and its Petrogenetic and Geophysical Implications, **1**, 1.
OYAWOYE, M. O.
The Contact Relationship of Charnockite and Biotite Gneiss at Bauchi, Northern Nigeria, **2**, 138.
PHIPPS, C. B., and F. A. E. REEVE.
The Pre-Cambrian-Palaeozoic Boundary of the Malverns, **5**, 397.
RAMSAY, D. M.
Deformation of Pebbles in Lower Old Red Sandstone Conglomerates Adjacent to the Highland Boundary Fault, **3**, 228.
RAY, P. S.
On the Association of an Indurate Basic Tuff and a Felsite Intrusion in the Kilchrist Vent, Skye, **4**, 289.
RICKARDS, R. B.
The Graptolitic Mudstone and Associated Facies in the Silurian Strata of the Howgill Fells, **5**, 435.
ROBERTS, J. L., and J. E. TREAGUS.
A Re-Interpretation of the Ben Lui Fold, **6**, 512.
RUDWICK, M. J. S.
Brood Pouches in the Devonian Brachiopod *Uncites*, **4**, 329.
SADLER, H. E.
The Origin of the "Beach-Beds" in the Lower Carboniferous of Castleton, Derbyshire, **4**, 360.
SAHA, A. K.
A Simple Grid Deviation Technique of Study of the Areal Composition Variations in Granitic Bodies, **2**, 145.
SALTER, D. L.
New Occurrences of Tonsteins in England and Wales, **6**, 517.
SAXENA, M. N.
The Continuity of S_1 and S_e Surfaces in Garnets : An Observation, **6**, 502.
SAYAR, C.
Ordovician Conulariids from the Bosphorus Area, Turkey, **3**, 193.
SIMPSON, A.
The Metamorphism of the Manx Slate Series, Isle of Man, **1**, 20.

SPARKS, B. W.
A Note on the Pleistocene Deposit at Grantchester, Cambridgeshire, **4,** 334.
SPRY, A., and D. GEE.
Some Effects of Palaeozoic Folding on the Pre-Cambrian Rocks of the Frenchmans Cap Area, Tasmania, **5,** 385.
STEIN, V.
A Section through the Llandovery of N.E. Bavaria, Germany, **4,** 322.
SULLIVAN, R.
The Lower Carboniferous Rocks of the Castle Hill Fault Block, Tenby, Pembrokeshire, **2,** 113.
SWINNERTON, H. H.
The Early Development of *Gryphaea*, **5,** 409.
TANK, R. W.
X-ray Examination of some Clays from the London Platform, **6,** 535.
TREAGUS, J. E.
Notes on the Structure of the Ben Lawers Synform, **3,** 260.
WATSON, J.
Conditions in the Metamorphic Caledonides during the Period of Late-orogenic Cooling, **5,** 457.
WILSON, C. B., and W. B. HARLAND.
The Polarisbreen Series and other evidences of late Pre-Cambrian Ice Ages in Spitsbergen, **3,** 198.
WOOD, D. S.
Some Structures in the Dalradian Pillow Lavas of the Tayvallich Peninsula, Argyll, **6,** 481.
WRIGHT, M. D.
Cross-bedding in the Millstone Grit of the Central Pennines and its Significance, **6,** 520.
